INDEPENDENT AUDITOR'S REPORT

Members of the Board
Southern Columbia School District
Catawissa, PA

We have audited the accompanying general purpose financial statements of the Southern Columbia School District as of and for the year ended June 30, 2000 as listed in the table of contents. These general purpose financial statements of the Southern Columbia School District are the responsibility of the School District's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements of the Southern Columbia School District are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements of the Southern Columbia School District. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1, the Southern Columbia School District has valued the assets in the General Fixed Asset Account Group at appraised value rather than at historical cost as prescribed by generally accepted accounting principles. Additionally, the appraised value of the fixed assets purchased by its proprietary fund are shown in the General Fixed Asset Account Group. Therefore, the proprietary fund has not recorded any depreciation expense. Generally accepted accounting principles state that fixed assets purchased by the proprietary fund should be shown as assets of that fund and depreciated over their estimated useful lives. The effects of these departures from generally accepted accounting principles are not known.

In our opinion, except for the effects on the financial statements of recording fixed assets as described in the preceding paragraph, the general purpose financial statements of the Southern Columbia School District referred to above present fairly, in all material respects, the financial position of the Southern Columbia School District as of June 30, 2000, and the results of its operations and the cash flows of its proprietary fund type and nonexpendable trust fund for the year then ended in conformity with generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 22, 2000, on our consideration of Southern Columbia School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants.

Our audit was performed for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U. S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the general purpose financial statements of South Columbia School District. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the general purpose financial statements taken as a whole.

SOUTHERN COLUMBIA SCHOOL DISTRICT
Notes to the Financial Statements
June 30, 2000

Note 1 - Summary of Significant Accounting Policies

The Southern Columbia School District provides public education to residents of seven townships and boroughs within Columbia and Northumberland Counties, Pennsylvania from its campus and buildings located between Catawissa and Elysburg, Pennsylvania.

The accounting policies of the School District conform to generally accepted accounting principles except that the School District has valued the assets in the General Fixed Asset Account Group at appraised value rather than at historical cost. The appraised value of fixed assets purchased by the proprietary fund are included in the General Fixed Asset Account Group and therefore these proprietary fund assets have not been depreciated. These accounting policies are not in compliance with generally accepted accounting principles.

A. Principles Determining Scope of Reporting Entity

The Southern Columbia School District Board of Education ("Board") is the basic level of government which has oversight responsibility and control over all activities related to the public school education in the Southern Columbia School District. The Board receives funding from local, state and federal government sources and must comply with the requirements of these funding source entities. However, the Board is not included in any other governmental "reporting entity" as defined in GASB pronouncements, since Board members are elected by the public and have decision making authority, the authority to levy taxes, the power to designate management, the ability to significantly influence operations and primary accountability for fiscal matters.

The School District participates in the Columbia Montour Area Vocational Technical School (CMAVTS) which is governed by a joint operating committee. The committee is composed of fourteen members; two appointed annually from each of the seven member school districts. The CMAVTS provides vocational and technical education for students of the seven member school districts. Each member school district pays tuition to the CMAVTS based upon its relative enrollment percentage at the school. The member school districts approve the budget of the CMAVTS.

This joint venture does not meet the criteria for inclusion within the reporting entity because the CMAVTS is separately chartered from the school districts it serves, its joint operating committee controls the employment of personnel, its joint operating committee has the power to approve all operating expenditures of the CMAVTS, and the CMAVTS is maintained as a separate operating unit.

For the year ended June 30, 2000, the member school districts and the percentage of tuition received from each member school district were as follows:

Berwick	27.40%
Benton	6.48%
Bloomsburg	14.30%
Central Columbia	16.15%
Danville	19.17%
Southern Columbia	9.85%
Millville	<u>6.65%</u>

A. Principles Determining Scope of Reporting Entity - continued

The District's share of the joint venture net of the general fixed assets allocated to the School District, (See Note 7), is not determinable. The most recent CMAVTS financial information for the year ended June 30, 2000 is available at the CMAVTS business office. A summary of this information is presented below:

Assets	\$ <u>1,364,135</u>
Liabilities	\$ 563,324
Fund Equity	<u>800,811</u>
Total Liabilities and Fund Equity	<u>\$1,364,135</u>
Revenues	\$5,014,490
Expenditures	<u>5,013,776</u>
Excess of Revenues Over Expenditures	<u>\$ 714</u>

The CMAVTS has long-term debt outstanding at June 30, 2000 of \$155,820.

The District made tuition payments to CMAVTS of \$404,121 for the year ended June 30, 2000.

B. Fund Accounting

The accounts of the School District are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped in the financial statements in this report into generic fund types and broad fund categories as shown below.

a. Governmental Funds

General Fund - The General Fund is the general operating fund of the School District. It is used to account for all financial resources except those required to be accounted for in another fund. Normal debt service payments for general long-term debt are recorded in the General Fund by the School District. The School District's payroll account is included in the General Fund.

Special Revenue Fund - The Special Revenue Fund is used to account for the proceeds of specific revenue sources that are restricted to expenditures for specified purposes. The Capital Reserve Fund and the Athletic Fund of the School District are accounted for as Special Revenue Funds.

Debt Service Fund - The Debt Service Fund is used to account for the general long-term debt. Normal debt service payments for general long-term debt are recorded in the General Fund by the School District.

Capital Projects Fund - The Capital Projects Fund is used to account for the receipt and disbursements of monies for the acquisition or construction of major capital facilities.

Note 1 - Summary of Significant Accounting Policies - continued

B. Fund Accounting - continued

b. Proprietary Fund

Enterprise Fund - An Enterprise Fund is used to account for operations (a) which are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes. The Food Service Fund, used to account for the operations of the School District's cafeterias, is reported as an Enterprise Fund.

c. Fiduciary Funds

Agency Fund - The Agency Fund is used to account for assets held by the School District as an agent for individuals, private organizations, other governments and/or other funds. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's Student Activity Funds are reported as Agency Funds.

Nonexpendable Trust Fund - The Trust Fund is used to account for assets donated to the School District to support scholarships with the revenue earned off the assets.

d. Account Groups

General Fixed Assets Account Group - This account group is used to report all general fixed assets of the School District. It is concerned only with the measurement of financial position and does not involve measurement of results of operations.

General Long-Term Debt Account Group - This account group is used for all general long-term debt obligations of the School District except any which are accounted for in the Proprietary Fund. It is concerned only with the measurement of financial position and does not involve measurement of results of operations.

C. Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

All governmental and agency funds are accounted for using the modified accrual basis of accounting. Under this method, revenues are recognized when received except for (a) those accruable revenues, recorded as receivables when they are measurable and available, (b) property taxes and other levied taxes which are recognized when they become available, including tax receivables collected within sixty days after year-end and (c) federal revenues, generally recognized in the same year the related expenditures occur. The School District reports deferred revenue on its combined balance sheet. Deferred revenues arise when a potential revenue does not meet the criteria for recognition in the current period. Deferred revenues also arise when resources are received by the School District before it has a legal claim to them, such as grant monies received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the School District has a legal claim to the resources, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized.

Note 1 - Summary of Significant Accounting Policies - continued

C. Basis of Accounting - continued

Expenditures are generally recognized when the related fund liability is incurred under the modified accrual basis of accounting. Exceptions to this general rule include principal and interest on general long-term debt which is recognized when paid and other post-employment benefits, to the extent that they exist, which are also recognized when paid.

The proprietary fund utilizes the accrual basis of accounting. All revenues are recognized as they are earned, and expenses are recognized as they are incurred.

The two account groups, general fixed assets and general long-term debt, are not "funds." They are concerned only with the measurement of financial position. They are not involved with measurement of results of operations.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets.

The proprietary fund is accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of this fund are included on the balance sheet. Proprietary fund type operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net total assets.

D. Budgets

Budgets are prepared on a basis consistent with the School District's accounting policies. An annual budget prepared by function and object is formally adopted for the General Fund. The School District does not formally adopt a budget for the Special Revenue or Capital Project Funds.

All budgets are approved by the School District's Board of Directors. Board approval must be obtained for any revision which alters the amount budgeted for any fund or program. Several budget revisions requiring and not requiring board approval were made during the year ended June 30, 2000. The final authorized budgets are presented in these financial statements. Encumbrances are considered in the budgetary process in the School District's funds but lapse and are ordinarily cancelled at the end of the School District's fiscal year.

The original budgeted revenues were increased to account for the additional federal and state funds received during the 1999-2000 school year. The corresponding expense accounts were proportionally increased to cover the associated expenses related to these funds received.

E. Cash and Investments

Cash includes amounts in demand deposits. All investments are in certificates of deposit, money market accounts, government securities and liquid asset funds and are stated at cost which approximates market value. This is in accordance with Section 440.1 of the School Code.

F. Taxes Receivable and Deferred Revenue

Taxes receivable consist of delinquent per capita, occupation and real estate taxes due at June 30, 2000, less an allowance for the amount of these delinquencies not expected to be collected within the next fiscal year.

Deferred revenue consists of the amount of taxes receivable at June 30, 2000 less the amount actually collected and remitted to the School District in July and August, 2000.

G. Interfund Receivables/Payables

During the course of operations, transactions sometimes occur between individual funds for goods provided or services rendered. These receivables and payables, to the extent they exist, are classified as "Interfund Receivables" or "Interfund Payables" on the balance sheet.

H. Inventories

Inventory in the Proprietary Fund consists of federal donated commodities, valued at estimated fair market value using USDA values, and other cafeteria supplies and foodstuffs valued at cost. The inventory is taken into account in the determination of the results of operations and is not offset by a reserve in the equity section. The estimated USDA determined fair market value of donated commodities used during the year is included in nonoperating revenues and an offsetting amount is included in operating expenses.

Inventory in the General Fund consists of estimated expendable supplies held for consumption. An offsetting reservation of the fund balance for the estimated value of this inventory is reported in the General Fund's equity section.

I. Fixed Assets

Fixed assets are recorded as expenditures in the governmental funds when purchased. No depreciation has been recorded for the general fixed assets.

The amount shown in the General Fixed Asset Account Group is based on an October, 1999 appraisal of the School District's fixed assets and the cost of assets purchased subsequent to that date. The appraised value was based on a "sound insurable value" method. This method utilized an estimated cost of reproduction less an allowance for accumulated depreciation as its basis for valuation. There was no estimate for the value of the land owned by the School District in the appraisal.

A portion of the fixed assets of the Columbia Montour Area Vocational Technical School (CMAVTS) has been allocated to, and included in, the general fixed asset account group of the School District. The total allocation, \$920,068, is pro-rata based upon the relative percentage of students at CMAVTS from the Southern Columbia School District during the year ended June 30, 2000.

Note 1 - Summary of Significant Accounting Policies - continued

I. Fixed Assets - continued

The Proprietary Fund has not capitalized the cost of the fixed assets purchased by, or for, that fund. Additionally, the appraised value of the fixed assets purchased by the Proprietary Fund is shown in the General Fixed Asset Account Group. Therefore, the appraised value of these assets is not shown in the Proprietary Fund and, accordingly, no depreciation expense for these assets has been recorded. This is not in accordance with generally accepted accounting principles which state that fixed assets should be recorded at cost in the General Fixed Assets Account Group except those purchased by the Proprietary Fund. The Proprietary Fund should record the cost of capital improvements purchased as fixed assets on its balance sheet and depreciate them over their estimated useful lives. The effects on the financial statements as a result of these departures from generally accepted accounting principles are not known.

J. Other Post-Employment Benefits

Substantially all employees of the School District are covered under one of two currently applicable labor agreements. In addition to the pension benefits described in Note 10, the following post-employment benefits are mandated by these labor agreements.

Instructional employees who have served at least twenty years in the Southern Columbia School District, and who are eligible for normal retirement, the "window" or disability retirement from the field of public education under the PSERS will be granted a retirement severance at the time of retirement based on \$100 multiplied by the number of full years the employee has taught in Pennsylvania and \$40 multiplied by the total number of unused sick days accumulated by the employee. The maximum paid for unused sick leave shall be \$4,000. Any instructional employees who meet the above requirements and have thirty years of experience in the Southern Columbia School District will be entitled to double the above amounts.

Noninstructional employees who have served in the Southern Columbia School District, will be granted a retirement severance at the time of retirement equal to the sum of \$12 per day for each day of accumulated sick days up to 150 days.

K. Long-Term Obligations

All long-term obligations are reported in the General Long-Term Debt Account Group. The General Fund transfers amounts to the bond trustee to fund the normal debt service payments.

The proceeds of any bond issuances that may occur are reported net of any applicable discount or premium.

L. Fund Equity

The School District records reserves for a portion of the fund balance segregated for a specific future use. A specific fund balance reserve represents the segregation of assets equal to the amount of the reserve. They are earmarked for a special purpose and are, therefore, not available for other general expenditures of that fund.

The following represent specific fund balance reserves at June 30, 2000 -

\$ 3,744	Athletic Fund - future athletic expenditures.
\$1,384,633	Capital Reserve Fund - future repairs and renovations.
\$ 94,012	Capital Project Fund - future construction costs.
\$ 8,753	Nonexpendable Trust Fund - future scholarship expenditures.

M. Levied, Earned Income and Realty Transfer Taxes

Revenues from current tax receipts are recognized as they are collected and remitted to the School District. Revenues from delinquent tax receipts are likewise recognized as they are collected and remitted to the School District. Additionally, an accrual is made for delinquent taxes less an allowance for uncollectible delinquencies at June 30 of each year. (See Notes 3 and 6.)

Property taxes are levied on July 1 on property values assessed as of June 30. Per capita and occupation taxes are also levied on July 1 for assessments valued as of June 30. The billings are considered due immediately, however, the taxpayers may pay as follows: discount period - July 1 to August 31; face period - September 1 to October 31; and penalty period - November 1 to December 31, after which the bill becomes delinquent.

N. Total Columns on Combined Statements

Total columns on the Combined Statements are captioned "Memorandum Only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations or changes in financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been recorded in the aggregation of this data.

O. Federal Subsidies

During the year ended June 30, 2000 the School District received \$428,453 of federal subsidies. These subsidies were used to provide specialized reading instruction, purchase equipment and provide both monetary and foodstuffs support to the School District's cafeterias.

P. Definition of Cash and Cash Equivalents

For the purpose of the statement of cash flows, the term cash and cash equivalents includes cash in bank and short-term, highly liquid investments with a maturity of ninety days or less at the date of purchase.

Q. Compensated Absences

Administrative and instructional employees are granted vacation benefits in varying amounts to specified maximums depending on tenure with the District. Sick leave accrues to Administrative, Instructional and Noninstructional employees to specified maximums.

The liability for Compensated Absences is recorded in the General Long-Term Debt Account group.

Note 2 - Legal Compliance Budgets

All principals at each educational level of the School District submit requests for appropriation to the superintendent and business manager. A tentative budget is prepared. It includes information on the past year, current year estimates and requested appropriations for the next fiscal year.

The proposed budget is presented to the School Board for review. The School Board holds public hearings and may add to, subtract from or change appropriations, but may not change the form of the budget.

Tentative adoption of the budget must be made 30 days prior to final adoption to allow for public review. Final adoption of the budget must occur on or before June 30. Budget transfers may be made within object codes at any time during the fiscal year by the superintendent or the business manager. Transfers among functions may be made only with Board approval. Additions to the budget from unexpected revenue and the offsetting expenses may be made with a resolution by the Board.

Note 3 - Receivables

Taxes receivable at June 30, 2000, consist of the following:

	<u>General Fund</u>
Real Estate	\$ 145,879
Per Capita	6,900
Occupation	<u>149,608</u>
Sub-total	302,387
Less: Allowance for Uncollectible Taxes	(50,000)

Note 4 - Deposits and Investments

The School District's cash deposits and investments are restricted by statute to United States Treasury bills, short-term obligations of the United States Government and certain obligations of the United States, Commonwealth of Pennsylvania or its political subdivisions which are backed by the full faith and credit of those governmental entities. Additionally, the School District may invest in shares of a properly registered investment fund whose investments consist of the securities listed above. Deposits in banks and other financial institutions must be insured by the Federal Deposit Insurance Corporation or the National Credit Union Insurance Fund. Deposits in excess of the maximum insurable amounts must be collateralized by securities held by that institution, in accordance with the provisions of law. Pool pledging in accordance with P.L. 281, No. 72, ("Act 72"), is permissible.

Risk Categories

All deposits are at banks and are carried at cost. There are three categories of credit risk that may apply to the School District's deposits.

1. Insured or collateralized with securities held by the School District or by its agent in the School District's name.
2. Collateralized with securities held by the pledging financial institution's trust department or agent in the School District's name.
3. Uncollateralized.

Balances held in each category are as follows:

	<u>Carrying Amount</u>	<u>Bank Balance</u>
Insured (FDIC)	\$110,000	\$110,000
Uninsured: Collateral held by Federal Reserve Bank in School District's name	192,094	349,747
Uncollateralized	<u>-0-</u>	<u>-0-</u>
Total Cash and Certificates of Deposit	<u>\$302,094</u>	<u>\$459,747</u>

The amounts listed as uncollateralized have been secured by pool pledging in accordance with Act 72.

The School District has investments in a money market account and certificates of deposit with a local bank, as well as, certificates of deposits, government securities and liquid asset funds, purchased through PSDLAF, Invest and banks.

All investments are stated at cost which approximate market value. There are three categories of credit risk that may apply to the School District's investments.

1. Insured or registered, or securities held by the School District or its agent in the School District's name.
2. Uninsured or unregistered, with securities held by the counterparty's trust department or agent in the School District's name.
3. Uninsured and unregistered, with securities held by the counterparty, or by the counterparty's trust department or agent, but not in the School District's name.

1996 General Obligation Bonds

On July 15, 1996 the School District issued \$5,960,000 of Series of 1996 General Obligation Bonds. The entire amount was sold in a negotiated sale at a discount of \$44,700. The proceeds of this bond issue were used to fund the costs of certain capital projects and to refund the General Obligation Bonds, Series of 1990 and Series of 1991.

The bonds are fully registered and were issued in multiples of \$5,000. Interest is payable semi-annually, at rates stipulated in the indenture, on April 15 and October 15 of each year. Principal payments are scheduled annually on April 15 of each year, through April 15, 2007. The bonds maturing April 15, 2002 and thereafter are subject to redemption prior to maturity at the option of the School District as a whole, or in part, on April 15, 2001 or any date thereafter. The effective interest rate over the lives of these bonds is approximately 4.95%.

The bonds are secured with the full faith, credit and taxing power of the School District. A sinking fund has been established by a paying agent for the payment of principal and interest. Funds must be transferred to this account not later than the maturity and interest payment dates established by the indenture. The remaining scheduled maturity dates, principal amounts and applicable interest rates associated with the bond issue are presented below:

Note 10 - Pension Plan

The School District participates in the Public School Employees' Retirement System (PSERS), a governmental cost sharing multiple-employer defined benefit plan with the following benefits provided: Retirement and disability, legislative mandated ad hoc cost-of-living adjustments and health care insurance premium assistance to qualifying annuitants. The plan is authorized by the Public School Employees' Retirement Code (Act No. 96 of October 2, 1975, as amended) (24 Pa.C.S. 8101-8535). The system issues a comprehensive annual financial report that includes financial statements and required supplementary information for the plan. A copy of the report may be obtained by writing to Dana C. Peterson, Office of Financial Management and Budget, Public School Employees' Retirement System, P. O. Box 125, Harrisburg, PA 17108-0125. The report is also available in the publications section of the PSERS site on the Internet at www.psers.state.pa.us.

Note 10 - Pension Plan - continued

The contribution policy is established in the Public School Employees' Retirement Code and requires contributions by active members, employers, and the Commonwealth. Active members who joined the system prior to July 22, 1983 contribute at 5.25 percent of the member's qualifying compensation. Members joining the system on or after July 22, 1983, contribute at 6.25 percent. Contributions required of employers are based upon an actuarial valuation. For fiscal year ended June 30, 2000, the rate of employer contribution was 4.61 percent of covered payroll. The 4.61 percent rate is composed of a pension contribution rate of 4.36 percent for pension benefits and .25 percent for health insurance premium assistance. Employer contributions and percentages of contributions for 2000, 1999 and 1998 are as follows, respectively, contribution amounts - \$270,326, \$335,207 and \$465,361 percentages of contributions - 4.61%, 6.04% and 8.76%.

In accordance with Act 29 of 1994, the Commonwealth of Pennsylvania will continue to contribute one-half of the employer contributions for non-school entities and will pay school entities for contributions made to PSERS based upon the formula provided in Act 29 of 1994, but not less than one-half of the school entities' contributions.

Note 12 - Commitments and Contingencies

The School District receives state grants and subsidies that are subject to audit and review by the Auditor General. These audits could result in a request for reimbursement by the state for amounts disallowed under the terms and conditions of the appropriate agency. In the opinion of the District's management, such reimbursements, if any, will not be significant.

Note 13 - Construction Commitments

During May 1999 the School District signed agreements with several contractors for the construction of an addition to the high school. The general contractor contracted for \$2,195,521. As of June 30, 2000, \$1,997,384 was paid on the contract. The electrical, plumbing and HVAC contractors contracted for \$544,422, \$235,140 and \$496,451, respectively. As of June 30, 2000 the following was paid \$518,422, \$230,465 and \$471,629 on the electrical, plumbing and HVAC contracts, respectively.

June 30, 2000

Note 1 - General

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal financial assistance programs of the Southern Columbia School District. The School District's reporting entity is defined in Note 1 to the School District's general purpose financial statements. All federal assistance received directly from federal agencies as well as passed through other government agencies are included on the schedule.

Note 2 - Basis of Accounting

The accompany Schedule of Expenditures of Federal Awards is presented using the modified accrual basis of accounting which is described in the notes to the School District's general purpose financial statements.

Note 3 - Relationship to General Purpose Financial Statements

Federal financial assistance revenues are reported in the School District's general purpose financial statements as follows:

General Fund	\$ 321,012
Cafeteria Fund	<u>107,441</u>
Total per Financial Statements	428,453
Access Reimbursements Not Included on the Schedule of Expenditures of Federal Awards	(105,781)
Decrease in Revenue Recognized for USDA Donated Commodities to Value of Commodities Used	(<u>399</u>)
 Total Federal Revenue per Schedule of Expenditures of Fixed Awards	 \$ <u><u>322,273</u></u>

Note 4 - Relationship to Federal Financial Reports

Amounts reported in the accompanying schedule agree with the amounts reported in the related federal financial reports except in cases where those reports are filed on a basis other than the modified accrual basis of accounting.

Note 5 - USDA Donated Commodities

USDA donated commodities are valued at USDA assigned values at time of delivery.

**REPORT ON COMPLIANCE AND ON INTERNAL CONTROL
OVER FINANCIAL REPORTING BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS***

Members of the Board
Southern Columbia School District
Catawissa, PA

We have audited the general purpose financial statements of Southern Columbia School District as of and for the year ended June 30, 2000, and have issued our report thereon dated September 22, 2000, which was qualified because the School District values its assets in the General Fixed Asset Account Group at appraised value rather than at historical cost. Additionally, the appraised value of the fixed assets purchased by its proprietary fund are shown in the General Fixed Asset Account Group. Except as discussed in the preceding sentences, we conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether South Columbia School District's general purpose financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Souther Columbia School District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the school board, management, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

Members of the Board
Southern Columbia School District
Catawissa PA

COMPLIANCE

We have audited the compliance of Southern Columbia School District with the types of compliance requirements described in the *U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2000. Southern Columbia School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Southern Columbia School District's management. Our responsibility is to express an opinion on Southern Columbia School District's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Southern Columbia School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Southern Columbia School District's compliance with those requirements.

In our opinion, Southern Columbia School District, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2000.

INTERNAL CONTROL OVER COMPLIANCE

The management of Southern Columbia School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Southern Columbia School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of law, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operations that we consider to be material weaknesses.

This report is intended solely for the information and use of the school board, management, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
